About FewClix for Notes

FewClix for Notes offers unified search & prioritization capabilities for IBM Notes email users. FewClix for Notes helps eliminate email clutter, instantly isolate email messages that need attention and locate any email message in just seconds

Since it is integrated into the Notes mailbox, FewClix for Notes is a logical extension of the user's workflow and also enables users to leverage all of the native IBM Notes functionality

FewClix for Notes also indexes email and attachment content, so users have the added capability to search for emails using these options:

- Search – Find any email in seconds
- Prioritize – Instantly isolate the emails that need attention

FewClix for Notes now comes with added personalized Searches

About the Deployment Guide

Document Conventions

The following conventions are used in this document:

Style	Description
<i>Italic</i>	Identifies screen caption

Bold	Identifies command button, menu items and product names
hyperlink	Identifies a link to a place within this document or an external source. (Applicable only to electronic versions of this document)

System Requirements

Hardware	
RAM	Minimum 4 GB
Hard Disk Space	Minimum 10 GB (including mail file index)
Software	
Operating System	Windows 7 x32, 7 x64, 8.1 x32, 8.1 x64, 10 x 64, Mac OS X 10
IBM Notes Client	8.5.3 Standard Configuration (all Fix Packs) **, 9.0.1 Standard Configuration

** All 8.5.3 Fix Packs prior to Release 9.0

Installing FewClix for Notes

The FewClix for Notes Enterprise Installer needs to be deployed on a centralized IBM Domino Server. This document explains the steps required to install FewClix for Notes for multiple users using the FewClix for Notes Enterprise NSF Installer

IMPORTANT:

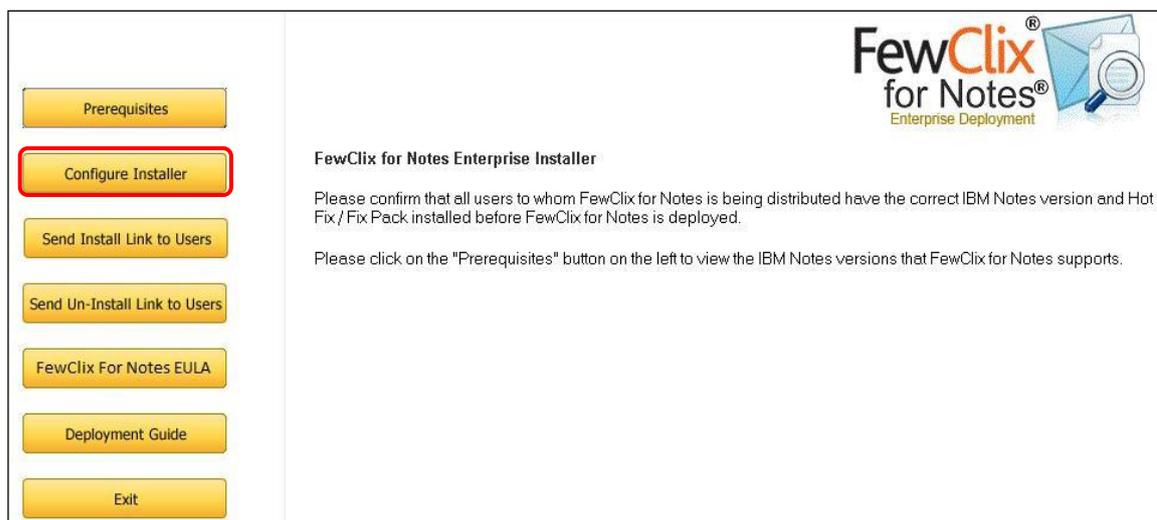

1. Once the FewClix for Notes Enterprise Installer NSF application is deployed on a Domino server, please ensure that it is signed by the Notes Administrator / Server ID
2. Depending on the number of user licenses being deployed, the Domino server on which the FewClix for Notes Enterprise Installer is provisioned may need to process a large number of installation requests within the first few hours of distribution. Hence, please ensure that the Domino server has adequate resources to handle the number of concurrent requests expected
3. If FewClix for Notes is being deployed for users on different Domino, domains hosted on multiple servers, we recommend that the FewClix for Notes NSF Enterprise Installer is also deployed on multiple servers

Step 1 – Configuring the Enterprise Installer

Before beginning configuration, please click the 'Prerequisites' button to ensure that FewClix for Notes is being deployed to all users and meet the Notes Client version requirements

Once this has been confirmed, the first step is to configure the 'Enterprise Installer' application

- Click the 'Configure Installer' button on the left pane

- In the '**Configure: FewClix for Notes User Installation Notification**' screen, enter the email address and contact information of the Principal Administrator

Configure: FewClix for Notes User Installation Notification	
Enter e-mail address and Contact Info (Optional) for the person who is the principal Admin Contact for FewClix for Notes	<input type="text" value="Abraham/APAC/GBS"/> <input type="text" value="(Contact Info)"/>
Enter 'Subject' that you want included in the email that will be sent to users along with the FewClix for Notes Installation link <small>Note: If you leave the subject blank, the default subject will be used</small>	<input type="text" value="You have been assigned a license for FewClix for Notes"/>
Enter 'email Message' that you want included in the email that will be sent to users along with the FewClix for Notes Installation link <small>Note: If you leave the Message blank, the default message will be sent to users</small>	Mail Header : <input type="text" value="You have been assigned a license for FewClix for Notes, the email productivity application for IBM Notes. Please follow the link below to make sure that your version of Notes supports FewClix for Notes before proceeding with the installation.."/> Installation Link : <input type="text" value="Please click on this link to launch the installation page -----> Notes Link"/> Mail Footer : <input type="text" value="If you need any assistance or additional information, please contact Administrator Name"/> <input type="text" value="To get a quick product orientation, please view the getting started videos available at the link below, the total duration for the videos is under 6 minutes."/> <input type="text" value="http://www.fewclix.com/demos.php"/> <input type="text" value="Regards"/>

- Enter the subject that you want to include in the email that will be sent to users along with the installation link

Note: If the subject is left blank, the default subject 'You have been assigned a license for FewClix for Notes' will be used as the subject

- Enter the email message that you want to send to users along with the installation link

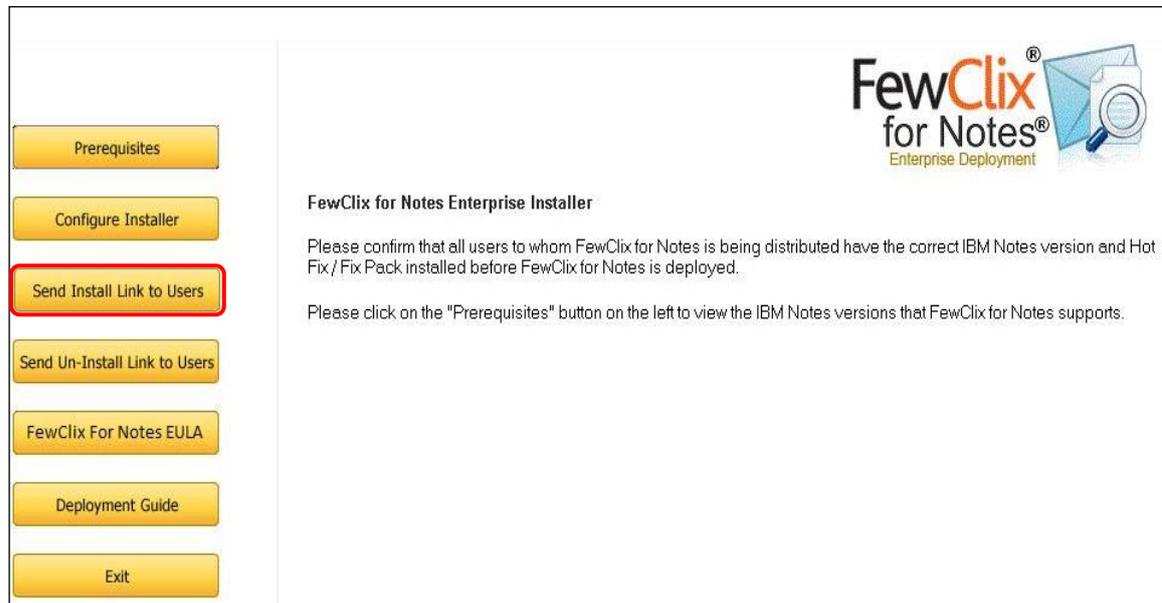

Note: If the message is left blank, the default message shown in the screen above will be used

Configure: FewClix for Notes User Selection	
Select Mail Server from which you will pick User Names	<input type="text" value="Panther/GBS"/>
Number of users you would like to deploy FewClix for Notes for, you can use the link below to select the Users	<input type="text" value="100"/>
Please select the User Names/User Groups for whom you want to send the FewClix for Notes installation link	<input type="text" value="Abraham/APAC/GBS"/>

- In the '**Configure: FewClix for Notes User Selection**' screen, select the Mail Server from where you will pick user names
- The number of user licenses you have purchased is displayed by default in the next field (this is not an editable field)
- In the next field, select the User Names / Groups for whom you would like to deploy FewClix for Notes
- Click '**Save & Close**' to save the configuration document

Step 2 – Emailing the FewClix for Notes Installation link to users

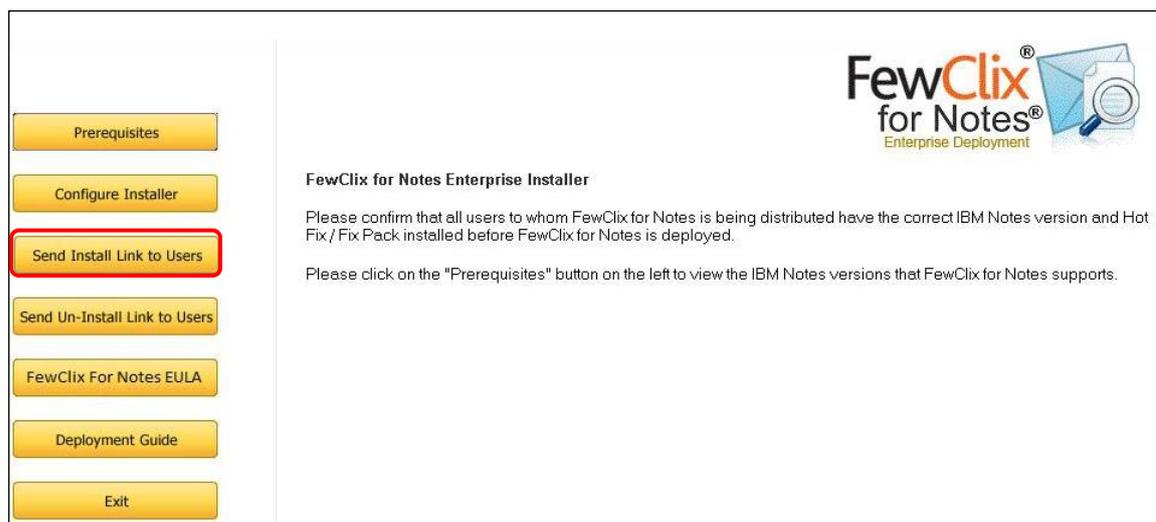

- Once configuration is complete, click the **'Send Install Link to Users'** button

- This action will display the FewClix for Notes (EULA) End User License Agreement. Please read and accept the agreement to continue with the deployment
- On accepting the EULA, the Enterprise Installer emails the selected users and displays a confirmation message with the number of users to whom the FewClix for Notes Installation link was sent

Uninstalling FewClix for Notes

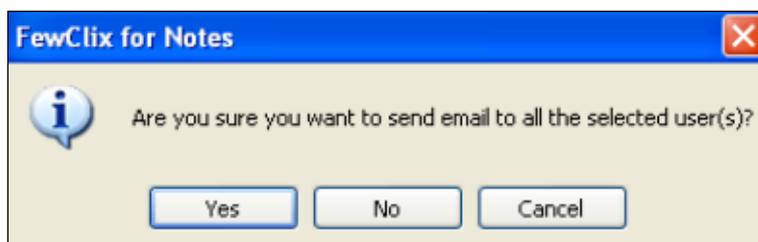

- Click the **'Send Un-Install Link to Users'** button to send an email with uninstallation instructions to selected users

- Clicking on the link displays the list of users to whom the installation email was sent

- Select the user(s) to whom you would like to send uninstallation instructions and click '**OK**'
- Prompts for the Confirmation request, click '**Yes**' to proceed

- Once the uninstall instructions emails have been sent, the Enterprise Installer will display a confirmation message with the number of users to whom the emails were successfully sent.

FewClix for Notes EULA

Click on the '**FewClix for Notes EULA**' button to view the **FewClix for Notes End User License Agreement**
